There isn't a more sincere Chris tian gentleman or a truer Democrat in the county than the clerk at this polling-place during the recent election. The LEDGER doesn't believe that Mr. GEORGE W. SULSER sat idly by and permitted 34 or any other number of illegal votes to be cast for the Republicans, the Editor of The Bulletin to the contrary notwith-

who desire to buy Government bonds that bear interest at the rate of three per cent. or less. There may be constituted out of this occurrence a scarecrow,

Gazette, it is the outcome of bad National financiering. The pretended purpose of the sale of bonds exclusively for gold is to build up the gold reserve, but the real purpose is to make up defi-ciencies in the National revenue. When an individual finds his income deficient, as compared with his expenditures, there is but one way to settle matters, and that is to sell assets, if he has them, or borrow money. The Government holds prow money. The Government holds in species it sees the candle burning at the ends, and therefore it rusbes into season in the control of the all premium on gold for the pur-of making payments in that exclu-surrency. In 1860, or in the closing sive currency. In 1860, or in the closing years of President Buchanan's Adminis weight the closing years of Mr. CLEYE.

evidence as to the credit of the Govern-ment, and nothing can impair this credit except most reckless and incompetent management of public affairs.

The people of the United States is

The people of the United States in 1860 turned the Democratic party out of power. The result was not only the maintenance of the Union, but the restablishment of the credit of the Gorernment also. This three-per-cent. measurement of the National credit is the result of thirty years of Republican control of affairs. There has not been, since the close of the war, a dedeit in the National Treasury. On the contrary, there has been a surplus that caused the retirement to a large extent of the retirement to a large extent of the National debt.

Now mark the contrast. Within two years, under Democratic management, and under the influence of Democratic threats, the gold reserve has been broken down, the current receipts are no proving equal to current expenditures, and the bonded debt is being increased under conditions that threaten the credit of the Government, and would threaten and disturb it very seriously but for the fact that everybody has learned from the voice of the people, expressed through the ballot-box, that Democratic misman agement, while it has not reached it end, is nearing it.

The temporary premium on gold, therefore, means nothing except that people having confidence in the Government are anxious to purchase three-per cent. bonds.

Is not this an argument, if we are to

have further loans, or if we are to refund outstanding loans upon maturity, in favor of a popular loan that shall be payable in lawful money? Why should the Government discriminate against its own currency? If gold must be had to build up a gold reserve, let the customs duty be sufficient to meet the expenses of the Government, honestly and economically administered. This policy would solve the problem so far as policy would solve the problem so far as the National Treasury shall be concerned. This having been accomplished, Congress can proceed, without tinkering or with-out producing unrest, to reform, so far as reform may be found necessary, the currency system.

One year of absolute Republican con-trol in National affairs would serve to place the country in its industries, in its finances, and in its National re-sources, on the high road leading to solid confidence and growing prosperity.

GOVERNOR BROWN'S Thanksgiving Proclamation is brief. Here it is:

In Selma so great is the apprehension
felt that armed guards have been
placed over the military arsenal to
prevent a possible raid upon the arms
and ammunition by Kolbites. All the
troops in the state have arranged to go
to Montgomery, and it is understood
they will carry their guns loaded.
